

**IN THE SPECIFICATION:**

Please amend the specification as follows:

Please amend the fifth sentence of paragraph [0024] as follows:

--Other connections 174 may connect the stylet and therefore the cannula 80 to power generators 176 to other parameter monitors ~~180~~ 181 (viz. temperature, impedance, current, voltage, power, or other relevant heating or monitoring outputs).--

Please amend the third sentence of paragraph [0026] as follows:

--When the stylet 140 is removed from the cannula, the thermal probe may be inserted into the cannula ~~180~~ 80, as illustrated by the dashed line 211.--

Please amend the ninth sentence of paragraph [0029] as follows:

--The thermal sensors can be connected by internal wires through the hub 200 and further through a connection cable 250 to external apparatus such as the power generator 176 or temperature or impedance monitors ~~180~~ 181.--

Please amend the tenth sentence of paragraph [0032] as follows:

--Such a tone can be generated by monitor ~~180~~ 181 in FIG. 2.--
